Come into the light

Richie Fike Capo 2

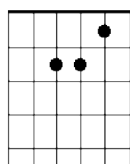

Am G/B C D G Gsus...
It seems that all I've ever done, all I seem to know is how to hide
And all I'll ever need, all I'll ever want is in your eyes
So, come and shake me from this refuge, serves to save me from the rescue of a friend
You can color me a coward, for I fear I'll be devoured in the end

G G/B C G
Come into the light, oh my spirit
G G/B C G
Come into the deep and cleansing waters of His heart
G/B Am G/B C
Come into the peace that passes everything you know
D G Gsus
Come into the light

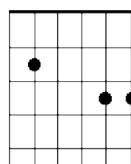

I know that all I really need is to be truly seen and still be loved
Oh, no, but if they'd really see the sin that lives in me, I'd just be judged
So, I find safety in my secrets. At least hidden, I can keep it in my soul
But, I've grown weary of these shadows, so I've come to simply shed of my control

Em D C D...

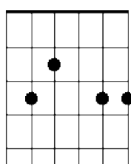

Clean out the closet, expose my darkness
Destroy my chance to even hide, I'm tired of these lies
Be known my weakness, expose my secrets
And meet me on the other side, I'm tired of these lies...
