**Who I am**

*Richie Fike*

*Capo 3*

**C G/B Am...**

I've been wounded, down to the bone  
But, if I knew then, what now I know  
That your redemption is new each day  
And I must give up and give myself away

**G F**  
It's a risk I've got to take  
**G F**  
It's a chance I'll not forsake  
**G F**  
I have come, my God to say  
(G) (C or F)  
This is who I am

In the corners of this, my heart  
Inside the borders, of all I think I've got  
Lives a desire to yield a little more  
So bring your fire, and heal me to the core

**F G Am G F...**  
You see me—What have I got, what have I got to hide?  
You know me—What have I got, what have I got to hide?  
You'll heal me—What have I got, what have I got to hide?  
You'll hold me—What have I got, what have I got to hide?

**F G Am G F...**  
This is who I am... What have I got, what have I got to hide?
